## Want To Make Some Extra Money?

Our referral program is hands down one of the best around. We will pay you to bring us tax clients. If you send clients to us we will pay you \$20 per client. This is a great program, we will pay you cash or check as soon as the client that was brought to us has completed the transaction.

Example: Fred is a client of ours and his tax return will cost him about \$100 to be prepared. Fred didn't want to pay the \$100 so he was proactive and went out and brought 10 clients to us. Instead of having to pay us \$100 we cut Fred a check for \$100. Heck of a deal right?

Example: Tina is not a client of ours because she is able to do her own tax return. Tina wants to make a little extra income right now so she decides to try and help bring clients to our company. She brings 25 clients every month for 3 months. We end up cutting her a check for \$250 every month for 3 months...what a nice little extra income. It is very easy to refer clients to us. One of the best ways is through word of mouth or

through social networking. Emailing your friends and family on facebook could make you an extra \$250 a month. One person was able to get 11 names and addresses of clients wanting tax work in one hour. That is \$220 per hour. Where can you work for that amount
